**UNITHER PHARMA ANNOUNCES PROMOTION OF
YU-LUN LIN TO PRESIDENT AND CHIEF EXECUTIVE OFFICER**

Satellite Beach, Florida, April 7, 2003: Unither Pharma, maker of the HeartBar and HeartBar Drink multi-gram arginine supplements, announced today that its President and Chief Operating Officer, Yu-Lun Lin, has been promoted to President and Chief Executive Officer.

“I am very pleased to announce Mr. Lin's ascendancy to the CEO position which continues our company's tradition of promoting from within whenever possible,” said Martine Rothblatt, Chairman and CEO of United Therapeutics Corporation (NASDAQ: UTHR), the parent company of Unither Pharma. “Mr. Lin has demonstrated all of the qualities and leadership we look for in a top executive.”

The HeartBar and HeartBar Drink nutritional supplements are currently available through Unither Pharma's network distributors. For information on how to order HeartBar products, please call 1-888-808-8636 or visit www.heartbar.net. Each HeartBar or HeartBar Drink provides six grams of the natural amino acid L-arginine. Multi-gram L-arginine supplementation increases vasodilation, and daily multi-gram L-arginine supplementation supports healthy circulatory function. Although L-arginine is an essential part of a healthy diet, people with sufficient L-arginine in their diet may not require L-arginine supplementation. These statements have not been evaluated by the FDA and HeartBar and HeartBar Drink are not intended to diagnose, treat, cure or prevent any disease.

United Therapeutics is a biotechnology company focused on combating chronic and life-threatening cardiovascular, infectious and oncological diseases with unique therapeutic products.
